TY, UTAH

Notice is hereby given by

the Division of Oil, Gas and

Mining, its tentative deci-

sion. Large

Mining Operations Notice of

Intent. Shaw Environmental Inc.

Shaw Environmental Inc. Peak

Quarry. Mining activities will

affect the following areas: por-

tions of: the west 1/2 of the

southwest 1/4 of section 4; the

southeast 1/4 of section 5;

and the northeast 1/4 of the

northeast 1/4, the northwest

1/4 of the southeast 1/4 of the

southeast 1/4, the northeast

1/4 of the southwest 1/4 of the

northeast 1/4, and the east 1/2

of the northwest 1/4 of the

northeast 1/4, section 8;

township 10 North, Range 2

West, SLBM, Utah County

Utah

Shaw Environmental Inc.

has submitted a permit appli-

cation to combine four exist-

ing small mining projects into

a single mining operation

with additional area for

future use. Reclamation sure-

ty will be provided to the

Division for the proposed pro-

ject. The operator

will employ the following

mining and reclamation tech-

niques in approximately 24.7

acres of land.

During Operations: No

permanent facilities are asso-

ciated with this operation.

Temporary structures include

a 500-gallon fuel tank, a

crusher and building facility

to new disturbances.

Available soils will be col-

lected for reclamation. The op-

eration is located on the old

quarry area in section 4.

Soils in blasted and excavat-

ed from the quarry area and

hauled to the processing area.

Here is will be crushed and

screened, and

Final product will be hauled

by truck to various markets

and mitigation areas in the

Eureka area. Emission dust

will be controlled by applica-

tion of magnesium chloride

and water. The operator has

an Air Quality Approval

Order for operation of the

crusher.

After Operations: The

quarry area will be left with

an overall slope of 45 degrees

(1h:1v). Because the pre-exist-

ing operation did not salvage

soil materials, no soil will be

replaced. Regrading with an

excavator and seeding will

reclaim access roads in the

quarry. Reclamation of the

processing area will consist of
grading and seeding. The
operator will provide the
depth of seed material
to be applied. The operator
will provide the depth of
seed material to be applied.

The operator will provide the
depth of seed material to be
applied. The operator will
provide the depth of seed
material to be applied.
